

Irish and Korean Culture

Task: Presentation

Topic Overview

This topic should enable students to recognise the similarities and differences between Ireland and Korea. Through the use of presentations, students will be able to understand the universality and relativity of culture, as well as to develop a broader perspective on the world. Students may also feel a sense of pride in their own culture by understanding how certain aspects of it have reached Korea.

Task Description

Students research the presence of Irish culture and Irish goods in Korea. They then prepare a presentation to compare and explain Irish and Korean culture. Presentations are made in teams

Learning Outcomes

- Recognise the power of culture
- Explain cultural differences between Ireland and Korea

Comments

Where students wish to do their presentation with a PowerPoint, it is important that this is prepared in advance.

If the activity is too difficult in this format, it can be replaced with students drawing a poster of the Irish products they would like to introduce to Korea. The teacher may choose specific areas (food, music, letter, and garment) or leave to students to decide
