Teacher observation

How to play Tic Tac Toe

Split the class in half into group X and Group O. Each group stands together on opposite sides of the room.

Explain that the students must all agree on the answer. One person from the group goes to the board to fill in the answer. The student is only allowed to go to the board once.

If the answer is correct the teacher will say 'да' and you can fill in your X or O. If 'nein', you have to go back to the group and decide what to change. The first group to get three x's or o's in a row wins. This game usually creates great excitement and fun.
